Together with other civil society organisations, Slow Food launched **a petition to ban cages in animal farming**. As a result, **the European Commission has agreed to phase out cages for farmed animals across Europe**

The Ugandan Land Grabbing Campaign helped raise the voices of peasant communities, supporting them in having their land rights respected and building their capacity to expose and resist land grabbing initiatives, which led to public authorities respecting their rights to practice agroecology

Slow Food backed local communities with more than 80 grassroots actions and initiatives in over 50 countries all around the world, supporting them in alleviating the effects that the pandemic had on thousands of artisanal farmers and citizens in fragile contexts
